

SENTHILKUMAR S

Full Stack Web Developer

Thiruvavarur, Tamil Nadu, India | +91 9363347500 | senthil.s111002@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Web Developer with hands-on experience building responsive, secure web applications using React, Node.js, JavaScript, MongoDB, and MySQL. Delivered 5+ end-to-end projects covering authentication systems, admin dashboards, and production-deployed corporate websites. Certified in Angular Development and Cybersecurity through Infosys Springboard. Strong foundation in problem-solving, UI/UX design, and full-stack architecture, seeking to contribute to a fast-paced development team.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, SQL

Frontend: React.js, HTML5, CSS3, Responsive Web Design

Backend: Node.js, Express.js, REST APIs

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Figma, Canva

Practices: Multi-Factor Authentication, Agile Collaboration, Debugging & Testing

WORK EXPERIENCE

Full Stack Development Intern - Tech Volt Software

- Contributed to full-stack feature development across frontend and backend modules as part of an Agile development team.
- Assisted in debugging, testing, and refining application code to improve reliability prior to deployment.
- Collaborated with senior developers to translate requirements into functional web application components.

PROJECTS

Digital Landing Purchase System

Full-stack web application | HTML, CSS, JavaScript, Node.js, MongoDB

- Engineered a full-stack platform to manage online land listings, user registration, and purchase requests with secure authentication.
- Implemented role-based access control and form validation to protect user and transaction data.

- Presented the project at a college technical symposium, focused on secure and efficient online land transaction management.

Enhancing Online Banking Security Through Hybrid Cryptography

Security-focused web application | HTML, CSS, Python

- Developed a secure online banking prototype applying hybrid cryptographic techniques to protect transaction data.
- Implemented multi-factor authentication (MFA) to strengthen login security and reduce unauthorized access risk.

Complaint Box

Web-based complaint management platform | HTML, CSS, Node.js, MongoDB

- Built a secure platform enabling digital complaint submission with categorization and status tracking.
- Designed an admin dashboard to streamline complaint review, resolution, and reporting workflows.

Expense Calendar

Personal finance tracker | HTML, CSS, JavaScript

- Built a calendar-based expense tracking application allowing users to log and review daily, monthly, and yearly spending.
- Implemented dynamic JavaScript logic to calculate and display expense summaries in real time.

Emmes Industries - Corporate Website

Production website | React.js, TypeScript

- Developed and deployed a responsive corporate website using React and TypeScript, improving the company's online presence.
- Optimized page layout and component structure for cross-device responsiveness and faster load times.

CERTIFICATIONS

- Angular Web Development - Infosys Springboard
- Cyber Security - Infosys Springboard
- Front-End Development - Certification Course
- ERP Development - Nandha Engineering College

EDUCATION

B.E. Computer Science & Engineering

Nandha Engineering College
Erode

B.Sc. Computer Science

EGS Pillay Arts & Science College
